Re: October 31, 2003 Deposit Account Statements
U.S. Patent Application No.: 09/964,863
Our Ref.: ORI.045

Dear Mai:

A charge of \$84.00 was erroneously deducted for fee code 1201 (independent claims in excess of three) from our Deposit Account 50-0481 on October 24, 2003.

It is noted that an Excess Claim Fee Payment Letter was filed on September 8, 2003, along with our Check No. 9804 in the amount of \$578.00 for two independent claims (\$168.00) and extension fee (\$410.00). Therefore, it appears that the \$84.00 was charged in error and should be refunded.

For your convenience, enclosed is a copy of the October 31, 2003, Monthly Statement of Deposit Account, Excess Claim Fee Payment Letter with dated stamped post-card, and Check No. 9804 including the back side of Check No. 9804 showing that the USPTO in fact cashed the check.

Thank you in advance for your consideration on this case.

Very truly yours,

Sean M. McGinn

Sir:

REQUEST FOR REFUND

A charge of \$84.00 was erroneously deducted for fee code 1201 (independent claims in excess of three) from our Deposit Account 50-0481 on October 24, 2003.

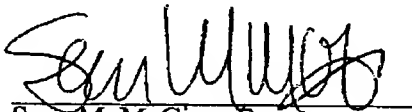

It is noted that an Excess Claim Fee Payment Letter was filed on September 8, 2003, along with our Check No. 9804 in the amount of \$578.00 for two independent claims (\$168.00) and extension fee (\$410.00). Therefore, it appears that the \$84.00 was charged in error and should be refunded.

Therefore, Applicant respectfully requests that the \$84.00 fee be refunded to Attorney's Deposit Account No. 50-0481. Please credit any overpayment of fees to Attorney's Deposit Account number 50-0481.

Respectfully Submitted,

Date:

第5-6頁

1. **Originals:** Original documents, photographs, etc., submitted by the submitter. These are the primary sources of information and are used to create the microfilm.

2. **Microfilm:** The microfilm is a negative of the original document, created by a microfilm camera. It is a small, flexible strip of film that can be stored for long periods of time.

3. **Microfilm Reader:** A device used to view the microfilm. It typically consists of a light source, a lens, and a viewing screen. The microfilm is placed in the device, and the light source illuminates the film, allowing the viewer to see the original document.

4. **Microfilm Storage:** Microfilm is typically stored in a microfilm canister or a microfilm reel. These are designed to protect the film from damage and to allow for easy storage and retrieval.

5. **Microfilm Distribution:** Microfilm is distributed to libraries, archives, and other institutions that have the equipment to view it. It is also available for purchase by individuals.

6. **Microfilm Preservation:** Microfilm is a durable format, but it can still be damaged by light, heat, and moisture. Proper storage and handling are essential to ensure the longevity of the microfilm.

7. **Microfilm Access:** Microfilm is accessed by inserting the canister or reel into the microfilm reader. The viewer then looks through the viewing screen to see the original document.

8. **Microfilm Conversion:** Microfilm can be converted back into a digital format using a microfilm-to-digital converter. This allows the information to be accessed and stored in a more modern format.

9. **Microfilm Archiving:** Microfilm is often used for archiving documents, as it provides a long-term, stable format for storing information.

10. **Microfilm Research:** Microfilm is used by researchers to access historical documents and other information that may not be available in other formats.

11. **Microfilm Education:** Microfilm is used in education to provide students with access to historical documents and other information.

12. **Microfilm Entertainment:** Microfilm is used in entertainment to provide viewers with access to historical films and other information.

13. **Microfilm Business:** Microfilm is used in business to provide companies with access to historical documents and other information.

14. **Microfilm Government:** Microfilm is used by government agencies to store and access historical documents and other information.

15. **Microfilm Academia:** Microfilm is used by academic institutions to store and access historical documents and other information.

16. **Microfilm Industry:** Microfilm is used by the film industry to store and access historical films and other information.

17. **Microfilm Media:** Microfilm is used by the media industry to store and access historical documents and other information.

18. **Microfilm Science:** Microfilm is used by the scientific community to store and access historical documents and other information.

19. **Microfilm Medicine:** Microfilm is used by the medical community to store and access historical documents and other information.

20. **Microfilm Law:** Microfilm is used by the legal community to store and access historical documents and other information.

21. **Microfilm History:** Microfilm is used by historians to store and access historical documents and other information.

22. **Microfilm Literature:** Microfilm is used by literary scholars to store and access historical documents and other information.

23. **Microfilm Art:** Microfilm is used by art historians to store and access historical documents and other information.

24. **Microfilm Music:** Microfilm is used by music historians to store and access historical documents and other information.

25. **Microfilm Religion:** Microfilm is used by religious scholars to store and access historical documents and other information.

26. **Microfilm Philosophy:** Microfilm is used by philosophers to store and access historical documents and other information.

27. **Microfilm Psychology:** Microfilm is used by psychologists to store and access historical documents and other information.

28. **Microfilm Sociology:** Microfilm is used by sociologists to store and access historical documents and other information.

29. **Microfilm Anthropology:** Microfilm is used by anthropologists to store and access historical documents and other information.

30. **Microfilm Linguistics:** Microfilm is used by linguists to store and access historical documents and other information.

31. **Microfilm Geography:** Microfilm is used by geographers to store and access historical documents and other information.

32. **Microfilm Meteorology:** Microfilm is used by meteorologists to store and access historical documents and other information.

33. **Microfilm Oceanography:** Microfilm is used by oceanographers to store and access historical documents and other information.

34. **Microfilm Botany:** Microfilm is used by botanists to store and access historical documents and other information.
